WORK EXPERIENCE

- **MIS (Management of Information Systems) Intern at Designatronics** during the Summer of 2025. Successfully completed the software migration of a legacy system to meet **cybersecurity requirements set by the Department of Defense (DOD)**. This involved **reverse engineering, redesigning, and redeploying** a widely used engineering tool previously hosted in-house on outdated legacy servers. Also worked on minor projects to resolve technical issues, set up new computers, host printers on the network and deploy them.
- **Future Ready Engineer Intern at Raytheon Technologies (RTX)** during the Summer of 2024. Developed a **prototype application** that uses **AI** to aid the elderly in combating email phishing scams through detection and education.
- **Volunteer Project at ReWild Long Island** during the Fall of 2025 and Summer of 2026. Collaborated with two interns, to design and deploy a full-stack volunteer management platform to support ReWild Long Island's ecological restoration initiatives. Built role-based authentication and dynamic dashboards for admins, volunteers, and interns while implementing modules for scheduling, location management, photo galleries, messaging and announcements. Deployed the system using Cloudflare Pages.
